Project 1: Maven Music

The chief editor of a magazine needs a visual for an article on how the launch of iTunes Music Store in 2003 impacted the evolution of the music industry. The data given displays the revenue from the physical and digital music sales from 1973 to 2019. From this image we can clearly see how after the launch of iTunes the digital sales increased in a logarithmically until 2015 where it takes off in a strong positive linear growth.
